

Job Title: Software Developer

Company: Gray Falcon (www.grayfalcon.com)

Location: Remote (Office available in St. George, UT)

Salary: Negotiable

Benefits: Medical & Dental | 401(k)

About Gray Falcon

Gray Falcon is a fast-growing software company dedicated to delivering innovative solutions that drive real impact in the ecommerce brand protection space. We're looking for a talented **Software Developer** to join our team and contribute to cutting-edge projects in a collaborative, results-driven environment.

Role Overview

As a **Software Developer** at Gray Falcon, you'll work on developing and optimizing software solutions using **Python** and **SQL**, while leveraging cloud infrastructure to scale our applications efficiently. The ideal candidate is a problem-solver who thrives in a remote work setting but enjoys the flexibility of an in-office environment if desired.

Key Responsibilities

- Develop, test, and deploy software using **Python** and integration with **SQL** databases
- Collaborate with cross-functional teams to design scalable architectures
- Work with **Google Cloud** and **Terraform** to manage infrastructure (preferred)
- Maintain & improve existing applications based on feedback & performance metrics

Requirements

- **3-5 years of coding experience** in software development
- **Proficiency in Python and SQL** (required)
- Experience with cloud platforms (Google Cloud preferred)
- Familiarity with **Terraform** for infrastructure as code (preferred)
- Strong problem-solving skills and attention to detail
- Ability to work independently in a remote environment while collaborating effectively with the team

What We Offer

- **Competitive salary** (negotiable based on experience)
- **Comprehensive benefits package** (medical, dental, 401(k))
- **Fully remote work flexibility** with access to an office in St. George, UT
- **Opportunity to work on impactful projects** in a growing and dynamic company

To apply, send your resume and a brief introduction to dev@grayfalcon.com.
